TALENT ACQUISITION

East Sea Energy Environment was set up on the passion of founders to associate create a better everyday condition for society. We focus on energy optimization and environmental control. Our aim is to utilize the newest technologies from international partners, combined with internal resources and excellent customer experience, to offer optimal solutions to our clients.
We are seeking a highly motivated candidate to join our team for the following position:

Project Engineer (Digital Transformation)
Location: No. 19, Street 64-TML, Cat Lai Ward, Ho Chi Minh City

Responsibilities:

- Conduct current-state assessments, gather business requirements, and develop solutions for collecting and managing operational data for customers, primarily using the AVEVA PI System platform (PI Server, PI AF, PI Vision) and other related platforms as required by the project.
- Deploy and configure systems and establish data connections from automation systems (DCS/SCADA/PLC) based on approved designs.
- Develop monitoring screens and intuitive dashboards, and integrate data with related systems (MES, ERP, etc.).
- Perform system testing and optimization before official operation; prepare technical documentation and operation guidelines; provide training support and troubleshoot issues after handover.
- Coordinate with and support the Sales Department in conducting site surveys, providing technical consultation, and preparing pre-project technical proposals, including scope of work and preliminary technical solutions.
- Monitor project implementation progress, promptly report issues, and propose solutions when challenges arise during the project.
- Coordinate with other departments, partners, and contractors during project implementation, as well as other activities in accordance with company regulations.
- Proactively update knowledge and new technologies related to the PI System and industrial data management solutions to improve implementation quality.
- Comply with occupational safety and information security regulations when working at customer sites or on customer systems.

Background:

- University degree in Control & Automation Engineering, Electrical & Electronics Engineering, Information Technology, or a related field.

Experience:

- Experience working in the automation or industrial information technology field.

Knowledge:

- Fundamental knowledge of industrial control systems (DCS/SCADA/PLC), industrial communication protocols (OPC, Modbus, TCP/IP), and databases (SQL Server).
- Knowledge of AVEVA PI System (PI Server, PI AF, PI Vision, PI Interface) is a plus.
- Experience with other Historian/SCADA platforms such as Wonderware Historian, GE Proficy Historian, Honeywell PHD, or Ignition is a plus.
- Experience in data integration with MES/ERP systems (SAP, Oracle) or IIoT/Cloud platforms (Azure, AWS) is a plus.

Skills:

- Good English reading and listening skills for technical documentation and training programs; basic English communication ability. Certification equivalents: TOEIC 650+, IELTS 5.5+, B2+.
- Good communication and coordination skills when working with customers and relevant stakeholders throughout project implementation.
- Experience in scripting with Python, PowerShell, or VBA for configuration automation and data processing is a plus.

Abilities:

- Proactive and flexible in work.
- Willingness to travel and work on-site at customer facilities, including factories and industrial parks.

Benefits:

At ESEC, you will be in the right place to grow – both professionally and personally.

- You'll be inspired by the meaningful projects we do: Sustainable projects, Green activities, and Community-oriented activities.
- You'll collaborate with global leaders such as IBM, AVEVA, ETAP, Schneider, Siemens, and
- ABB with many internal and external training courses.
- We embrace the Owner mindset & working style – Encouraging creativity, taking initiative,
- and focusing on delivering results.
- You'll also enjoy a supportive working environment with:
  - ➢ Outing Trips, Sport Clubs & YEP
  - ➢ Bonuses on holidays, revenue, loyalty rewards
  - ➢ Other activities centered around people and culture

Because at ESEC, you are not just an employee – you're part of the team.
