TALENT ACQUISITION

East Sea Energy Environment was set up on the passion of founders to associate create a better everyday condition for society. We focus on energy optimization and environmental control. Our aim is to utilize the newest technologies from international partners, combined with internal resources and excellent customer experience, to offer optimal solutions to our clients.
We are seeking a highly motivated candidate to join our team for the following position:

Project Engineer
Location:
No. 19, Street 64-TML, Cat Lai Ward, Ho Chi Minh City

Responsibilities:

- Perform electrical power system studies using ETAP software, including system modeling and analysis such as load flow, short circuit, relay protection coordination, and other related reports.
- Collect field data, develop accurate system models, and produce technical documentation for project deliverables.
- Support the Sales Department in pre-sales activities, including site surveys, technical consultations, system design input, and preparation of technical proposals.
- Coordinate with internal departments, partners, and contractors to ensure smooth project execution in alignment with company processes.
- Provide effective communication, task coordination, and customer support throughout the project lifecycle, including post-project services and system training for clients.
- Participate in vendor training programs, prepare training materials, and deliver knowledge transfer sessions for new team members.

Background:

- College or University degree in Electrical Power Systems, Electrical Engineering, Industrial Electrical Engineering, Automation, or a related field.

Experience:

- Hands-on experience with ETAP software.
- 1 year of experience; open for fresher in this field.

Knowledge:

- Strong foundational knowledge of electrical components, equipment, and power system principles.
- Understanding of electrical power system analysis methodologies.

Abilities:

- Demonstrated passion for technology, willingness to learn, and ability to self-study effectively.

- High sense of responsibility, diligence, and persistence.
- Ability to work both independently and as part of a team under pressure.

Skills:

- Good English reading and listening skills for technical documentation and training; basic communication ability. Certification equivalents: TOEIC 650+, IELTS 5.5, B2+.

Benefits:

At ESEC, you will be in the right place to grow – both professionally and personally.

- You'll be inspired by the meaningful projects we do: Sustainable projects, Green activities, and Community-oriented activities.
- You'll collaborate with global leaders such as IBM, AVEVA, ETAP, Schneider, Siemens, and ABB with many internal and external training courses.
- We embrace the Owner mindset & working style – Encouraging creativity, taking initiative, and focusing on delivering results.
- You'll also enjoy a supportive working environment with:
  - ➢ Outing Trips, Sport Clubs & YEP
  - ➢ Bonuses on holidays, revenue, loyalty rewards
  - ➢ Other activities centered around people and culture

Because at ESEC, you are not just an employee – you're part of the team.
